REMARKS

Claims 1-10 stand rejected under 35 U.S.C. § 103(a) as being unpatentable over Applicant's specification in view of Yoshizumi et al. (U.S. patent # 5,444,012), and further in view of Matsuura et al. (U.S. Patent # 5,132,774). However, the Office Action did not recite a clear rejection of the claims nor a clear basis for rejecting the claims. Therefore, an interview was conducted on July, 14, 2000, so that Applicants could receive a better explanation and understanding of the rejections recited in the Office Action.
